# Let Us Make Building Your Home As Rewarding As Living In It

Connect With Us

“

We love the home Artistic Design and Construction built with us. Alicia Kinard and her staff were very helpful, from design to finish, and we couldn't be more pleased with the result.

*Jill Crocker*

- ✓ Certified Green Professional™
- ✓ PRISM Award Winner
- ✓ Expert Home Plan Design
- ✓ Experienced, Capable Site Managers
- ✓ Effective Construction Management Systems
- ✓ Strong Supplier Relationships
- ✓ Engaged Communication and Collaboration
- ✓ 10-Year Structural Warranty

**Our goal is to make every home a work of art, and the journey as exceptional as the destination.**

At Artistic Design and Construction, building your home means more than the sum of its physical parts. Together, we transform your vision into a living work of art that serves as the foundation for your life stories

today and tomorrow. It's a relationship we have honored for more than a decade with professionalism and timely, effective construction management systems.

Our passion for quality shows throughout the building process. Experienced and capable team members translate each phase of your plan into reality with solid execution. From site selection and

lot clearing to final inspection, our commitment can easily be seen in the beauty of every home we build.

Equally important, you play a major role in the process. Our focus on communication and collaboration is a distinction our clients and colleagues value. *Let us make building your home as rewarding as living in it.*

### Certified Master Home Builder™ Distinction

Artistic Design and Construction is a Certified Master Builder, a professional designation created by the Home Builders Association of South Carolina to help homeowners identify exemplary builders who have a proven track record of stability, integrity and service to their buyers

### Certified Green Building Professional™

Artistic Design and Construction is a Certified Green Building Professional, incorporating environmental considerations and resource efficiency into every step of the home building and land development process with the goal to minimize the home's environmental impact and save financial resources.
